

# Nicole EZ-P Individual

EZ INSTALL - BUILDERS CHOICE

TYPE  
PROJECT

## Overview

- EZ Ship is when your looking for a fast solution to a space where you need an 8 foot or 4 foot single pendant.
- No waiting for Submittals, Drawings, Bill of Materials, or Approvals.
- Order 1 Power End Cap Kit per unit, no Joiners.
- Aesthetically pleasing Nicole has a round design with a tool-less snap on gear tray and a snap on frosted acrylic lens. End caps are milled for eliminating light leaks.
- Direct lighting only.
- If you need this product in linear rows, look under EZ Continuous Row.
- If you need this product in special lengths, colors , and patterns, please look at our standard Nicole under pendants large.

## Construction & Mounting

### HOUSING

Extruded aluminum housings are supplied in nominal lengths of 4 or 8 feet End caps are extruded,milled aluminum and encapsulate ends of lenses to minimize light leaks.

### REFLECTOR

Integral powder-coated LED housing with excessive reflectivity for increased lumen output

### FINISH

Standard powder-coated colors EZ Ship are white,black

### OPTICS

Extruded round snap-in frosted acrylic lens formulated for LED light sources

### MOUNTING

Cable mounting with various 5" canopies and power feeds. canopy color and cord will be white or black. Cable uses gripper style locking for field adjustments,48" standard. Canopy mounts to standard J-box.

Nicole EZ Ship Pendant Drop Lens Individual Fixture

## Electrical / Driver

- Drivers - Our drivers are specifically selected based on fixture application to ensure ultimate reliability and long life. We use only UL recognized brands of LED drivers. Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming. Please note, 277v has longer distances from power feed to power feed than 120v.
- Emergency drivers are factory installed as an option, long life, high temperature, recyclable Ni-Cad battery pack with test switch and charge indicator. EMR is minimum of 90 minutes operation to meet code.
- Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming.
- Rated life (90% survivorship) of 50,000 hours at 50° C max. ambient (and 70° C max. case) temperature. At maximum driver load: Efficiency >84%, PF>0.9, THD

## LED Performance

LED Output	CCT Color Temp	Watts	Lumens	Lumens per Watt	CCT Multiplier
Low	3500	3.8 WPF	350 LPF	90 LPW	90+ CRI
Medium	3500	5.5 WPF	500 LPF	90 LPW	90+ CRI
High	3500	8.3 WPF	750 LPF	90 LPW	90+ CRI

- The table above is a quick reference based on per foot. Please refer to photometric report for detailed information.
- Our light engines are precisely designed for optimal operation of LED assemblies.
- Our standard LED's CCT (correlated color temperature) range is 3000K to 3500K in EZ Ship program.
- We log LED bin codes for each project we supply to ensure color consistency and keep a record of those projects for future reference.
- CRI offered is 80+, and 90+ Note: on 90+ CRI use .85 multiplier
- LED life is rated at 50,000 hours
- We design our own printed circuit boards to ensure high luminescence efficiency, low thermal resistance and long-term reliable operation.
- Light engines are easily replaced.
- We use only recognized brand LED's with 3 SDCM (standard deviation color matching) with high color consistency.
- If you require a special LED manufacturer, please contact us. LED chip manufacturers used by Picasso are primarily (but not limited to) Nichia, Cree and Samsung.
- LRP - "LED Reel Program" – LED's for printed circuit boards come on reels' like old 8mm projectors and they're sold in lots just like fabric. At Picasso Lighting, we have a program where we make sure all of your reels come from the same lot for each project. This ensures excellent color consistency in large open spaces.

## Certifications & Warranties

- Limited five-year limited warranty on all products that are installed according to the product's specifications. Fixture must be properly installed by qualified licensed electricians, who meet and understand local installation requirements. Proper ambient conditions are to be met. The normal indoor temperatures of 50-90 degrees F, no more than 95% RH and sufficient air flow are required. Fixture should not be modified, and no maintenance or repairs should be performed without the written authorization from Picasso Lighting.
- We manufacture based on approved spec sheets and submittals signed by the customers. Change orders must be in writing and will delay delivery.
- Picasso Lighting reserves the right to repair or replace a defective product with another product with a similar design and the same or better performance, or to refund the distributor for the purchase price. The costs of labor to replace luminaires are not covered.
- Warranty does not cover damage caused by transportation, damage caused by using the fixture in an area it is not UL rated for, damage caused by negligence, lack of maintenance, attempts to repair by unqualified or unauthorized personnel, by using non-original accessories/parts, fixtures installed in systems without power surge protection.
- Picasso Lighting must receive in writing any complaints regarding the defective products, no later than 3 weeks from delivery addressed to: [ttoledo@picassoltg.com](mailto:ttoledo@picassoltg.com). Picasso Lighting will send a field technician to the site to evaluate the said defective product or may require product to be sent back to the factory for repair. The customer is responsible for the costs of disassembly and reassembly. We do accept field repairs and replacement labor from licensed electrical contractors but not without a written agreement signed by Picasso Lighting official. Failure to adhere to all warranty and certifications will void any recompense and the warranty.
- IBEW USA Union All fixtures are IBEW manufactured and assembled in the USA. UL listed for dry and damp locations.
